

Technical Rider

Flying Anchor, Andrea Wick

The anchor is demountable and is carried in 2 bags of 8kg.

Rigging: Minimum height of the suspension point: 5.10m
Maximum height without anchoring: 9m

Minimum load: 500 kg

A suspension point could be: beam, truss, authorized hook

With a suspension point higher than 6m, a pulley can be used (provided by the artist).

If there is a motor installed, even better.

Stage: clear space under and around the anchor: 4m x 4m

Provided by the host:

Stage lights, sound system, dressing room
